Shade Structures

# The Beautiful Way To Increase The Value Of Your Home.

For more than 50 years, Amerimax has been helping people get more value, space, and enjoyment from their homes. As an industry leader, we've built a solid reputation for reliability, comfort, and style. Alumawood™ shade structures, featuring the Aluma-Shield™ paint system with TEFLON® surface protector, take performance and dependability to new heights.

## It's Never Been This Easy To Enjoy The Look Of Wood.

With the embossed surface of an Alumawood™ shade structure, you'll enjoy the beauty of a richly textured wood grain finish — with a fraction of the maintenance and upkeep. That's because Alumawood™ shade structures won't crack, peel, warp, or rot. They're also termite-proof, don't burn, and never need painting.

In addition, our new Aluma-Shield™ paint system with TEFLON® surface protector repels dust, dirt, oil, and stains, keeping a new and pristine appearance. It also reduces corrosion from the sun, salt, pollution, and the elements. In short, with an Alumawood™ shade structure, you get the beauty of wood and the convenience of a highly durable, low-maintenance aluminum surface.

## Part Shade. Full Shade. Total Comfort.

Alumawood™ shade structures offer two distinct product lines, allowing you to find the balance of style and comfort that's right for you. *Laguna Lattice* lends an air of sophistication and charm to your home's exterior without screening out refreshing breezes. *Newport Solid Roof* shade structures provide you and your family with maximum protection from the sun, rain, snow, or other elements.

## If You Can Dream It, We Can Build It.

We understand that every home and homeowner has a unique style. An Alumawood™ shade structure has the design flexibility needed to make your vision a reality. An Alumawood™ shade structure gives you:

- Heavy header-beam construction
- Richly textured wood finish
- Six popular designer colors
- Durable Aluma-Shield™ paint system for long-term gloss retention
- Fasteners in matching colors
- Four style options for beam and rafter end cuts

## You'll Rest Easier Under An Alumawood™ Shade Structure.

Why? Because we offer one of the most thorough paint warranties in the business. Not only are you covered by an established, stable company, but your warranty is also transferable — which provides additional value if you decide to sell your home.
